SIN YANG PLASTIC ENTERPRISE

ABOUT US

Moulding its beliefs on customer-centric approach, the company, that is currently approaching it's in the past 1994 year of establishment until now. It is discovering new ways of meeting and fulfilling the market demands.

Others than that, **SIN YANG PLASTIC ENTERPRISE SDN BHD** Starting from 1998 to provide the market-place with a reliable source of plastic hardware.

The core business of **SIN YANG PLASTIC ENTERPRISE SDN BHD** is producing and manufacturing various kinds of plastic products, this includes in-house products & custom made products. The company's core philosophy of continuously evolving with the market trend has enabled it to provide a sound competition to the market.

The company has evolved to become a recognized leader in the design and development of automotive, industrial and custom plastic hardware.

SIN YANG PLASTIC ENTERPRISE SDN BHD utilizes the most modern equipment and materials available to produce a high quality of product for customer. Our in-house tool and design facility provides expert engineering from design concept through to the final production of a product. Our plant is staffed with dedicated employees focused on product quality.

The company envisions a share in the global market by placing a strict following process procedure & quality that provided & declared by customer & quality check sheet. in its every effort to ensure superiority in its products and services in order to capture more internationally based customers.

OUR MISSION

Delivering the efficient services and best quality of products for our customers to avoid money and time wastage on the wrong products.

OUR VISION

To build a new trend cycle of plastic polymer designer and manufacturer in the international field.

OUR CORE VALUES

PASSION

It fuels our commitment to excellence, fuels our creativity, and inspires us to exceed expectations. Our unwavering passion ensures that we go above and beyond for our clients, transforming ideas into reality with infectious enthusiasm. Together, we inspire passion in the industry and forge lasting partnerships built on shared fervor.

INNOVATION

Our team thrives on creativity, embraces emerging technologies, and challenges the status quo. With a constant drive for improvement, we deliver cutting-edge solutions that exceed expectations and drive industry progress.

QUALITY

We are committed to delivering products and services of the highest standards. Through meticulous attention to detail and rigorous quality control, we ensure excellence in everything we do. Our unwavering dedication to quality earns the trust and satisfaction of our valued clients.

SUSTAINABILITY

Guided by environmental responsibility, we prioritize eco-friendly practices throughout our operations. From responsible sourcing to reducing waste and minimizing our carbon footprint, we strive to create a positive impact on the planet. Our dedication to sustainability extends to the development of eco-friendly products that promote a greener future. By embracing sustainable practices, we aim to contribute to a more sustainable world for generations to come.

COMMITMENT

We prioritize our clients, employees, and partners, delivering exceptional quality, innovative solutions, and unmatched customer service. Our unwavering dedication ensures that we exceed expectations and build lasting relationships based on trust and reliability.

FLEXIBLE TO MAKE YOUR PRODUCT

A custom-made tap is a uniquely designed faucet crafted to meet specific customer preferences, offering personalized features, materials, and finishes for a tailored water tap fixture and OEM plastic products.

HEAD OF TAP

Available to change custom colour & type of the head of tap.

BODY OF TAP

Available to change custom colour.

HOSE OF TAP

Available to change type of the hose.

SIN YANG PLASTIC

A stunning blend of style and innovation that redefines your water experience. With its sleek design, precise temperature control, & smart thermal sensors, this tap ensures safety, efficiency & elegance. Crafted for durability and easy installation, it's a statement piece that fits any environment.

SLEEK SIMPLICITY

Embrace clean and contemporary design with **Sin Yang Plastic**. Its minimalist look effortlessly complements any setting, from kitchens to bathrooms, adding a touch of modernity to your space.

SMOOTH OPERATION

Experience easy water control with the tap's user-friendly lever handle. Whether it's a gentle flow for washing hands or a quick rinse, We ensures a seamless transition with every use.

DURABLE BUILD

Crafted from high-grade plastic polymers materials, this tap is engineered to withstand the demands of daily use. Say goodbye to corrosion & hello to a long-lasting solution for your water needs.

EFFORTLESS INSTALLATION

No need for complicated setups. **Sin Yang Plastic** is designed for quick installation, making it a hassle-free choice for DIY enthusiasts & professionals alike.

VERSATILE FIT

Compatibility is key. This tap's universal design ensures it can easily replace your current tap, making it an ideal choice for upgrades or replacements. Enhance your space without the stress.

WATER-EFFICIENT

Save water, save money. **Sin Yang Plastic** comes with built-in water-saving technology, helping you make an eco-conscious choice without compromising water pressure.
